### **WONDERFUL STRIDES** IN COAL PRODUCTION

Strike in Anthracite Fields Gave Permanent Impetus to Bituminous Industry.

PREDICTS YEAR'S RETURNS.

Mr. F. E. Saward Thinks Total of Soft Coal Will Be Four Times as Great as That of Hard Coal.

REPUBLIC SPECIAL. Baltimore, Md., Nov. 29.-Never before was the bituminous coal trade of this country, in which the South is so deeply interested, given such an impetus as during the strike in the anthracite fields. In the view of Mr. F. E. Seward, the well-known coal expert, this activity seems likely to con-tinue. Writing in this week's issue of the tinue. Writing in this weeks issue of the Manufacturers' Record, he says:

"It is not unsafe to say that, when the returns are in for the year 1902, the total will show a production of bituminous coal four times as great as that of anthracite, and when one considers that it is not so many years ago—in the life of an industry or of a country—that they were on an equal focting, so far as tonnage is concerned, this statement must have a great bearing upon the situation.

statement must have a great bearing upon the situation.

"The trade keeps up to the highest pitch of activity, and the cry of short car supply is heard throughout the country, the one significant fact being that the railroad companies are and have been large buyers. They are taking the maximum tonnage allowed by their contracts, and some have been buying in the open market, thus preparing for the winter and possibly acting on their knowledge of an insufficient car supply."

mined product increased from 6,000,000 tons to nearly 60,000,000 tons. As the use of these machines is greatest and the progress has been greatest in the central group of States, as well as in West Virginia, it is clearly evident that from those places is the greatest output of coal likely to come, and at a rate which will afford the opportunity for disposing of the product of the mine on a fair basis of cost.

"In West Virginia, where the machinemined coal was 205,000 tons in 1801, and it is no doubt this which has put that State in third place last year, and as Illinois was only 3,00,000 tons a head, it is not unlikely that when this year's returns are made up, the mountain State will occupy second place in coal production in this country, for with such developments going on in the Fairmount and in the Norfolk and Western districts such an increase is easily made up.

"Taken all in all, the prospects for the bituminous coal trade in this country are the brightest. With the industrial condition as it is and is likely to be, and the source of fuel supplies of industries being bituminous coal, the situation cannot be otherwise than as stated."

LESSONS IN LANGUAGE WORK. Teachers' Normal College of Ap-

prentices Meets at High School. The Teachers' Normal College of Appren-tices at the High School yesterday offered features of much interest to educators and friends of the children. The subject for the day was language work above the second

year.
Assistant Superintendent Ben Blewett conducted the exercises. He first set forth the philosophy of the work, showing that while during the first two years of school the child is encouraged to express his thoughts just as they come to him naturally. After this period the aim is to introduce the pupil to the conventionalities of written language.

Mr. Blewett Introduced a class 8 years old from the Hodgen School. The little

Riley Crum Shot to Death.

REPUBLIC SPECIAL

REPUBLIC SPECIAL.

Nevada, Mo., Nov. 29.—Riley Crum, a respected farmer of this county, was found dead near his home last evening. He left the house with a Winchester, presumably to hunt ducks. His body was found a few hours later. The top of his head was blown off.

A terrible fate has seemed to follow Crum since his removal to this county from Indiana. His first wife committed suicide several years ago by hanging herself. Two years ago his son was accidentally shot and killed by a merchant at Bronaugh, a small village in Vernon County, and since two more of Crum's children have died, and now death has overtaken the father.

Mrs. Deters's Will Filed.

Pauley; 1300 to her mother, Henrietta Gessner; 25 each to her step children, Carolina Krampe and Ferdinand Pauloy, and certain personal property to the children of Carolina Krampe, and the rest of her estate to her son, Aifred Pauley, and her daughter, Edna Pauley, in equal portions. Mrs. Deters's Will Filed.
